

HSA Investment Performance and Fact Sheets

The Sentinel HSA is a simple way to create a smart HSA investment strategy. Your initial funds will be allocated to the HSA default fund, the HCB Interest Bearing Account. Once your account balance exceeds the minimum cash threshold, you may allocate HSA funds to other investment options. We offer a choice of select investment options providing a broad range of investment strategies. Any earnings on your HSA investments are automatically reinvested and grow tax free.

You may review fund details through your online account and view current performance by going to the Education link in your Investments menu:

Once in the Education menu, you may select Fund Performance. In this page you can expand each fund to see current and past performance, access fact sheet, and prospectus.
