

April 2022 - 2 ways to simplify your account experience

April 2022

- Audience: FSA and HSA participants
- Topic: 2 ways to simplify your account experience
- Release date: April 29, 2022
- Access Email copy: [2 ways to simplify your account experience.msg](#) 

Preview:

The email preview features a blue header with a white icon of three interlocking gears, one containing a dollar sign. Below the icon are three dots and the title "2 ways to simplify your account experience". The main body is white with a light blue border. It contains two numbered sections, each with a bold heading, a paragraph of text, and a blue button. The first section is about downloading the Sentinel app, and the second is about adding the Benny Card to a mobile wallet. A "Pro Tip" section follows, also with a blue button. The footer is white with the Sentinel Benefits & Financial Group logo.

2 ways to simplify your account experience

Want to make your Sentinel account experience just a little bit easier? Here are two mobile tools that can help:

1. Download the Sentinel app.
Check account balances, submit claims by taking a picture of a receipt, save expenses for later, manage your Benny Card, and more! Search "Sentinel (FSA HRA HSA)" app in the Apple App Store or "Sentinel Reimbursement Accounts" app in the Google Play store.

[DOWNLOAD THE MOBILE APP](#)

2. Add your Sentinel Benny Card to your mobile wallet.
Like many financial cards, your Sentinel Benny Card can be added to your mobile app wallet! Hold your phone near card readers with this feature to eliminate the need to present your physical card. To add, simply follow the steps you'd take to add any card to your wallet. Once added, the card will appear in your wallet like a more generic version of your Benny Card (colored gray instead of blue-green), labeled "Benefits Card".

Pro Tip: Create a virtual shoebox!
If you ever cannot use your Benny Card, or simply want to save a receipt to reimburse yourself later, the Sentinel app is the perfect solution! Open your app, tap "Manage Expenses", and "Create New Expense".
By doing this, you're creating a virtual shoebox of qualified expenses that you can apply for reimbursement against down the road.
