

# How do I add my benefits card to my Apple Wallet?

Adding your benefits card to your mobile wallet can make paying for eligible expenses faster, more secure, and contactless. With mobile payments, you don't need to use (or even bring) your benefits card when you want to pay for eligible expenses. Your card will be accessible (alongside the rest of your credit or debit cards) in your mobile wallet. You can quickly add your benefits debit card to your Apple Wallet right from our FSA HSA HRA app with just a few taps on your device.

Please visit [this article](#) to learn how to add a transit card to your Apple Wallet.
